

## UNIFORM MASTER SUBSCRIPTION AGREEMENT

THIS UNIFORM MASTER SUBSCRIPTION AGREEMENT (“AGREEMENT”) CONTAINS THE TERMS AND CONDITIONS THAT GOVERN YOUR ACQUISITION AND USE OF OUR INFRASTRUCTURE.

BY ACCEPTING THIS AGREEMENT, BY EXECUTING AN ORDER FORM THAT REFERENCES THIS AGREEMENT OR ACCESSING THE EXIGO INFRASTRUCTURE, YOU AGREE TO THE TERMS OF THIS AGREEMENT. IF YOU ARE ENTERING INTO THIS AGREEMENT ON BEHALF OF A COMPANY OR OTHER LEGAL ENTITY, YOU REPRESENT THAT YOU HAVE THE LEGAL AUTHORITY TO BIND SUCH ENTITY AND ITS CORPORATE RELATED ENTITIES TO THESE TERMS AND CONDITIONS, IN WHICH CASE THE TERMS “YOU” OR “YOUR” SHALL REFER TO SUCH ENTITY AND ITS CORPORATE RELATED ENTITIES. IF YOU DO NOT HAVE SUCH AUTHORITY, OR IF YOU DO NOT AGREE WITH THESE TERMS AND CONDITIONS, YOU MUST NOT ACCEPT THIS AGREEMENT AND MAY NOT USE THE INFRASTRUCTURE OR ON-DEMAND SERVICES.

This Agreement was last updated on July 24, 2025. It is effective between You and Us as of the date of You accepting this Agreement.

### 1. DEFINITIONS

- 1.1. **“Corporate Related Entity”** means any entity which directly or indirectly controls, is controlled by, or is under common control with the subject entity and uses the Infrastructure. “Control,” for purposes of this definition, means ownership or control, either directly or indirectly, of more than 50% of the voting interests of the subject entity.
- 1.2. **“Customer”** means a person authorized by You to use the infrastructure. Customers may include but are not limited to Your employees, consultants, contractors and agents, independent representatives, distributors, affiliates, and third parties with which You transact business.
- 1.3. **“Custom Services”** means custom programming and features as well as consulting and training including, but not limited to, order calculation programming, data management, commission plan programming, project management, third party integrations, internationalization, and web programming. Custom Services are not included in the “Infrastructure” hereunder and are provided “AS IS” with no express or implied warranty.
- 1.4. **“Eligible Credit Period”** means a single calendar month and refers to the monthly billing cycle in which the most recent Unavailable event for a claim under Section 2.5(a) – (d) occurred.
- 1.5. **“Engage Mobile App”** means the mobile application and companion product to Experience Builder (defined below) that allows the field to share products and custom carts with their customers. “Engage Mobile App” excludes Non-Exigo Applications, Custom Services, and On-Demand Services.
- 1.6. **“Exigo Platforms”** means the Infrastructure, Experience Builder and Engage Mobile App as those terms are defined and excludes Non-Exigo Applications, Custom Services, and On-Demand Services.

- 1.7. **“Experience Builder”** means the e-commerce platform developed for direct selling companies which integrates a customizable online storefront with back end features to enable You to build and customize an online store, manage products, payments, fulfillment and shipping, business operations, marketing and advertising, and engage with Customers. “Experience Builder” excludes Non-Exigo Applications, Custom Services, and On-Demand Services.
- 1.8. **“Infrastructure”** means the Service Level of Our Exigo Admin that is stated on Your Order Form, the API’s, SYNC SQL, software development kits (SDK’s), and access to the order development SDK. The standard Admin Features are set forth on Our webpage <https://www.exigo.com/features.pdf> as We may change such features from time to time. “Infrastructure” excludes Non-Exigo Applications, Custom Services, and On-Demand Services.
- 1.9. **“Integrators”** means the third parties that work in or on applications or direct integrations of applications that interoperate with the Infrastructure.
- 1.10. **“Malicious Code”** means time bombs, Trojan horses, viruses, worms, and other harmful or malicious code, agents, files, programs, or scripts.
- 1.11. **“Monthly Uptime Percentage”** is calculated by subtracting from 100% the percentage of 5-minute periods during the Service Month in which We were in the state of “Unavailable.” If You have been using Exigo for less than 30 days, Your Service Month is still the preceding 30 days but any days prior to Your use of the service will be deemed to have had 100% availability. Monthly Uptime Percentage measurements exclude downtime resulting directly or indirectly from any Exigo SLA Exclusion (as defined in Section 2.5(d)).
- 1.12. **“Nodes in Tree”** means all Customer records that exist in the Customer table, regardless of whether the Customers are in one or more of the tree tables (i.e., Enroller/Unilever/Binary tables) and regardless of whether the Customer is a commission-earning customer type or not. The commission engine reviews all Customer records each time the engine runs and therefore, the existence of a Customer record means that the record will be processed when commissions are calculated.
- 1.13. **“Non-Exigo Applications”** means online applications and offline software products that are provided by entities or individuals other than Us, and that interoperate with the Exigo Platforms, including but not limited to any listed on Our website as Integrators and those identified by a similar designation.
- 1.14. **“On-Demand Services”** means services for which charges are based on usage such as Sandboxes, credit card tokenization and storage, and SMS Text Messaging. On-Demand Services may change from time to time by either adding new services or deprecating existing services.
- 1.15. **“Order”** means a request to purchase goods or services made by a Customer, including retail customers with whom You transact business, via the Infrastructure and/or Experience Builder and includes both one time and recurring requests. Each request that generates a data record of the transaction is counted as one Order. Return and replacements orders are not included for the purposes of counting Orders in section 2.8(a) or 2.9.

- 1.16. **“Order Form”** means the documents for placing orders hereunder, including addenda thereto, that are entered into between You and Us or any of Our Corporate Related Entities, including addenda and supplements thereto. By executing an Order Form, a Corporate Related Entity agrees to be bound by the terms of this Agreement as if it were an original party hereto. Order Forms are deemed to be incorporated herein by reference.
- 1.17. **“Performance Zone”** means distinct compute and web infrastructure installed to improve performance in another region replicating Exigo Experience Builder.
- 1.18. **“Service Credit”** means a dollar credit, calculated as set forth in Section 2.5, that We may credit back to Your account.
- 1.19. **“Service Month”** means the calendar month for the date of a claim under Section 2.5(a) – (d).
- 1.20. **“Unavailability”** means that the network to Our Infrastructure has no external network connectivity or http connectivity to APIs during a five-minute period and You are unable to use alternative method to connect to the network. This does not include a customization or third-party integration.
- 1.21. **“User Documentation”** means the online resource documents and training tutorials that may be available at <https://hub.exigo.com/>.
- 1.22. **“We,” “Us” or “Our”** means the Exigo Office, Inc. company described in Section 15 (Who You Are Contracting With, Notices, Governing Law and Jurisdiction).
- 1.23. **“You” or “Your”** means the company or other legal entity for which you are accepting this Agreement and Corporate Related Entities of that company or entity.
- 1.24. **“Your Data”** means all electronic data or information uploaded, submitted, stored by You or Your Customers to the Infrastructure or otherwise processed or generated by or on behalf of Us for You.

## 2. USE OF THE INFRASTRUCTURE

- 2.1. **Provision of Infrastructure.** We shall provide the Infrastructure to You pursuant to this Agreement and any relevant Order Forms during a subscription term. You agree that Your entering into this Agreement is neither contingent on the delivery of any new or additional functionality or features nor dependent on any oral or written public comments made by Us regarding future functionality or features. The infrastructure provided hereunder is provided as a Platform as a Service (“PaaS”) offering. As such the hardware and software are accessed by You over the internet rather than located on Your premises. Platform updates, security patches and general maintenance of the infrastructure are performed by Us and included with Your subscription pricing.
- 2.2. **Infrastructure Subscription Pricing.** All applicable pricing will be specified in an Order Form.
- 2.3. **Exigo Office Suite Features.** A detailed listing of Exigo Office Suite Features is contained at <https://www.exigo.com/features.pdf> and incorporated herein by reference.

2.4. Use of Experience Builder and Engage Mobile App.

- (a) Provision of Experience Builder. We shall provide the Experience Builder and Engage Mobile App to You pursuant to this Agreement and any relevant Order Forms during a subscription term. The Experience Builder provided hereunder is provided as a Software as a Service (“SaaS”) offering. As such the hardware and software are accessed by You over the internet rather than located on Your premises. Platform and software updates, security patches and general maintenance of the Experience Builder are performed by Us and included with Your subscription pricing.
- (b) Market Experience: You may establish the appearance of Your online store with a design template from Our Experiences (each an “Experience”). Each Experience provides code for the user interface and user experience enabling You to modify the display’s color schemes, fonts, logos, images, and how the UI/UX functions for the end user. If You install an Experience, You are licensed to use it exclusively for Your store on Experience Builder. Additionally, You are licensed to use any code enhancements or bug fixes released by Us. You are not permitted to transfer or sell an Experience to any other person’s store on Exigo or elsewhere.
- (c) You may modify the Experience to suit Your store. We may modify the Experience where it contains, in Our sole discretion, an element that violates provisions of this Agreement. We may modify the Experience to reflect technical changes and updates as required.
- (d) The intellectual property rights of the Experience, including code enhancements and bug fixes, remain Our intellectual property. We acquire no rights to any logos or trademarks of Yours incorporated into an Experience. You retain the intellectual property rights of any Experience developed by You, even if You used Our template in Your development, and used on Experience Builder.

2.5. Our Responsibilities. We shall: (i) provide Our support for the features on the Exigo Office Suite Features document to You at no additional charge (ii) use commercially reasonable efforts to make the Infrastructure available 24 hours a day, 7 days a week, except for: (a) planned downtime or “greysouts” (which We shall schedule to the extent practicable after hours or during the weekend hours), or (b) any unavailability caused by circumstances beyond Our reasonable control, including without limitation, acts of God, acts of government, pandemic, floods, fires, tornados, earthquakes, civil unrest, acts of terror, strikes or other labor problems, Internet service provider failures or delays, third party software or support provider failures or delays, bugs in third party software, or denial of service attacks, (iii) provide Exigo Platforms and/or On-Demand Services only in accordance with applicable laws, and (iv) provide as soon as practicable (but no later than 48 hours) notification of any breach of Your Data.

a) Service Level Agreement

We will use commercially reasonable efforts to maintain network availability and http connectivity to APIs with a Monthly Uptime Percentage as stated in the chart below during the Service Month. In the event We do not meet the Monthly Uptime Percentage commitment, You will be eligible to receive a Service Credit as described below.

Service Level	Monthly Uptime Percentage	Monthly Allowed Unavailability
Nano	99.5%	3h 39m 8s
Express	99.5%	3h 39m 8s
Standard	99.5%	3h 39m 8s
Enterprise	99.99%	4m 22s
Enterprise Plus (i.e., Custom Service Level)	99.99%	4m 22s

b) Service Commitments and Service Credits

If Your Monthly Uptime Percentage drops below the Monthly Uptime Percentage for the Service Month, You are eligible to receive a Service Credit for 500% of the downtime. 500% credit means that for every hour of downtime you will receive 5 hours of credit.

We will apply any Service Credits only against future Infrastructure subscription charges otherwise due from You. In the event a Term expires without renewal, then any Service Credits will be applied to the invoices for On Demand Services issued the last day of the Term. Service Credits shall not entitle You to any refund or other payment from Us. Unless otherwise provided in the MSA, Your sole and exclusive remedy for any Unavailability or non-performance and/or other failure by Us to provide connectivity to the Infrastructure is the receipt of a Service Credit (if eligible) in accordance with the terms of this Section 2.5. To be eligible for a Service Credit You must be current on Your Monthly Subscription.

c) Credit Request and Payment Procedures

To receive a Service Credit, You must submit a request by sending an e-mail message to [accounting@exigo.com](mailto:accounting@exigo.com). To be eligible, the credit request must (i) include, in the body of the e-mail, the dates and times of each Unavailability that You claim to have experienced; and (ii) be received by Us within three (3) business days of the last reported incident in Your credit request. If the Monthly Uptime Percentage of such credit request is confirmed by Us and is less than the Monthly Uptime Percentage for the Service Month, then We will issue the Service Credit to You within one billing cycle following the month in which the request occurred. Your failure to provide the credit request and other information as required above will disqualify You from receiving a Service Credit.

d) Exigo SLA Exclusions

The Service Commitment does not apply to any Unavailability, suspension or termination of Exigo, or any other performance issues: (i) that result from a suspension described in Section 6.4(Suspension of Access to the Infrastructure and Acceleration); (ii) that result from pre-determined grey outs for system maintenance, upgrades and patches (which We shall schedule to the extent practicable after hours or during the weekend hours); (iii) caused by factors outside of Our reasonable control, including any force majeure event or Internet access or related problems beyond the demarcation point of Exigo; (iv) that result from any actions or inactions of You or any third party engaged by You or acting on Your behalf; or (v) that result from Your equipment, software including custom programming or other technology and/or third party equipment, software including custom programming

or other technology (other than third party equipment within Our direct control) (collectively, the "Exigo SLA Exclusions").

- 2.6. **Your Responsibilities.** You shall (i) be responsible for Your Customers', employees', and Integrators' compliance with this Agreement, (ii) be responsible for the accuracy, quality, and legality of Your Data and of the means by which Your Data is acquired, (iii) be responsible for the level of access that Your employees and Integrators have to the Exigo Platforms and On-Demand Services (iv) use commercially reasonable efforts to prevent unauthorized access to or use of the Exigo Platforms and/or On-Demand Services, and notify Us promptly of any such unauthorized access or use, (v) use the Exigo Platforms and/or On-Demand Services only in accordance with the User Documentation, and applicable laws, and (vi) comply with the policies of any credit card brand (e.g. Visa, MasterCard, American Express, or Discover) utilized in conjunction with the Exigo Platforms and/or On-Demand Services. You shall not (a) make the Exigo Platforms and/or On-Demand Services available to anyone other than Customers, Your employees, or Your Integrators, (b) use the Exigo Platforms and/or On-Demand Services to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy rights, (c) use the Exigo Platforms and/or On-Demand Services to store or transmit Malicious Code, (d) interfere with or disrupt the integrity or performance of the Exigo Platforms and/or On-Demand Services or third-party data contained therein, (e) attempt to gain unauthorized access to the Exigo Platforms, and/or On-Demand Services or their related systems or networks.
  - a) The transmission, distribution, or storage of any data or material in violation of any applicable law or regulation is prohibited. This includes, but is not limited to, material or data which:
    - (1) Infringes any copyright, trademark, trade secret, or other intellectual property right.
    - (2) Violates export control laws or regulations.
    - (3) Violates any party's confidentiality rights.
    - (4) Constitutes use or dissemination of child pornography.
  - b) You, Your Customers, Your employees and any third party working on Your behalf are prohibited from using the Exigo Platforms to engage in improper use or distribution of electronic mail ("e-mail") and are strictly prohibited from using the Exigo Platforms to engage in any activities that violate applicable laws.
- 2.7. **Minimum Browser Requirements for Infrastructure.** The latest version of Microsoft Edge or Google Chrome are required to properly utilize the admin interface of the Infrastructure.
- 2.8. **Usage Limitations.** It is understood that all systems, processors, and infrastructures have limitations. It is impossible to foresee all future potential usage limitations. There may be limitations, such as limits on the size of uploads, on the number of simultaneous calls You are able to make against Our Application Programming Interface ("API"), and, for services that enable You to provide public websites, on the number of page views by visitors to those websites. We will notify You of any usage limitations if/when same are encountered and advise

on possible solutions. Additionally, service levels will have limitations on Orders per minute, calc per minute, and or concurrent users.

a) The following service levels have the corresponding capacity for daily API calls, Nodes in Tree, maximum number of Orders per month and per minute, maximum database size, and maximum in-memory commission size. Exceeding the API call or Nodes in Tree capacity may result in overage charges and/or diminished performance. Enterprise Plus is a custom service plan with performance metrics as stated on the Order Form. Direct Scale Legacy Service Level is a custom service plan for Direct Scale clients that have not yet migrated onto the Exigo Infrastructure. The performance and capacity metrics for the Direct Scale Legacy Service Level are as stated on the renewal or order form.

2.9. Clients that exceed the maximum capacity for their service level as set forth in section 2.8(a) above for two calendar months may be automatically upgraded to the service level that corresponds with Client's usage. Clients that are upgraded to a higher service level will incur and be responsible for paying the then prevailing monthly subscription rate for that service level. Clients that are upgraded to a higher service level will also incur and be responsible for paying the difference between the one-time fee paid by the Client and the prevailing one-time fee for the next service level.

(a) **Bursting.** The Experience Builder is designed to enable bursting of capacity for temporary higher usage. You shall notify Us in advance via the ticketing system of a flash sale or similar event where You anticipate higher than normal traffic.

2.10. Our direct competitors may not access Exigo Platforms, except with Our prior written consent. Our direct competitors include, but are not limited to ByDesign, Epixel Solutions, Greystar Solutions, iCentris, Flight Commerce, Infotrax, Jenkon, Multisoft Corporation, Naxum, Trinity, Xennsoft, and Xirect.

### 3. DATA PROTECTION AND RETENTION POLICY

3.1. **Our Protection of Your Data.** We shall maintain appropriate administrative, physical, and technical safeguards to protect the security, confidentiality, and integrity of Your Data. The Data Processing Agreement attached at the end of this MSA is incorporated herein by reference. We shall not disclose Your Data except as compelled by law in accordance with Section 8.3 (Compelled Disclosure) or as expressly permitted in writing by You. We use industry best practices and protocols to maintain Your data and back-up Your data. In the event of an emergency (fail over or other event requiring the shutdown of the primary database), there may be up to a five-minute lag in time while the geo-redundant backup replicates the primary database. During such lag time, modifications and/or new transactions that have not yet been

replicated to the secondary datacenter may be lost if the data cannot be recovered from the primary datacenter.

- 3.2. Clients Doing Business in the European Union. Clients doing business in the European Union must comply with the General Data Protection Regulation (“GDPR”) promulgated by the European Parliament and of the Council and the Data Processing Agreement attached hereto and incorporated herein by reference. As a data processor We only process Your Data with Your consent, for only as long as directed by You, and at Your direction in accordance with the General Data Protection Regulation. Services or tasks requested by You of Us in furtherance of GDPR compliance shall be performed and billed at standard hourly rates.
- 3.3. Retention of Your Data. We retain transaction data including Orders, payments, and commissions paid during the entire term of Your subscription. #### 4. SUPPORT PROCEDURE AND ESCALATION FOR STANDARD ADMIN FEATURES

- 4.1. Help Desk. Help Desk support can be provided via the resources provided in Our User Documentation available at <https://hub.exigo.com/> which contains user manuals, how to instructions, and frequently asked questions. Any questions that cannot be answered from the User Documentation must be entered in the online ticketing system maintained by Us accessible via the Exigo Admin each ticket being a "Support Ticket."
- 4.2. Support. Any support requests or inquiries must be entered into a Support Ticket. Support inquiries received during support hours from 9:00 a.m. to 6:00 p.m. Central Time, Monday through Friday, will be evaluated to determine the nature and categorization of the incident. Any items will be responded to within the response time listed for each category as follows:

**Category 1 (Low)** - The incident has little or no impact on the daily use of the function or module. It is usually a cosmetic problem, or the nuisance factor is very low. The incident will be entered and tracked in a Support Ticket and addressed depending upon the severity of the item.

**Category 2 (Medium)** - A function or module is usable, and operations are not severely restricted. The nuisance factor is not real high or there is a simple work around. Impact on operations is minor. The incident will be entered and tracked in a Support Ticket and resources engaged within 7 days.

**Category 3 (High)** - A function or module is usable, but operations are severely restricted. This category may not apply if the failure is a customization or third-party integration. The incident will be entered and tracked in a Support Ticket and resources engaged within two business days.

**Category 4 (Urgent)** - Customer is unable to process transactions for Orders due to infrastructure failure. The incident will be responded to within one hour of the notification to Us if the notification is received via phone 214-367-9999 (normal support desk, after hours answering service, or technician on call cell phone). Customer will receive periodic updates until resolution is achieved or a temporary work around is put in place. We will use best efforts to resolve this issue or provide an interim solution that will re-categorize the issue as a Category 3 incident.

- 4.3. Incident Tracking. You must access the Exigo Admin to open a Support Ticket for incidents related to the performance of the Exigo Platforms including, but not limited to, system bugs. You are required to login to view status, and to communicate updates/comments of each incident in the Support Ticket.
